MAGI DASHI

Vegan Dashi

From Hamaya Katsuo Bushi

""Plant-based, yet this delicious? ""

A new standard in dashi.

MAGI DASHI is a 100% plant-based bonito-flavored dashi developed by Hamaya Katsuo-bushi, 78 years old bonito company.

This white dashi was developed for food service operators who have struggled to recreate the umami and depth of flavor found in traditional bonito-based dashi — making it the ultimate all-purpose dashi solution.

Pure & Plant-Based

100% clean label. Contains no animal-derived ingredients, artificial coloring, or flavorings for a natural taste experience.

Proven Heritage

Crafted by a specialist with 78 years of expertise in dried bonito. Currently featured in Japan's most prestigious luxury hotels.

Effortless Prep

Optimized for efficiency. Simply dilute with water to unlock authentic, professional-grade flavor in seconds.
