No Preservatives No Additives

No Coloring

26 Allergen-Free 5.5-Year Shelf Life

A ready-to-eat emergency bread made with 100% domestic Japanese wheat flour and packed with seven kinds of vegetables. Soft and satisfying, it requires no cooking and is designed for people of all ages — from children to the elderly. Ideal for disaster preparedness kits, outdoor adventures, and everyday stockpiling.

No Preservatives or Additives

26 Allergen Free

Ready to Eat

Complete Allergen Safety

Free of all 26 specified food allergens. English allergen labeling is included, making it accessible for non-Japanese speakers in disaster situations.

Long-Term Storage

A shelf life of 5.5 years makes it ideal for rotating emergency stockpiles. Compact packaging (65×150×215mm) minimizes storage space requirements.

Remove the paper cup from the bag, then tear open along the perforated line starting from the OPEN tab and enjoy. Remove the paper cup from the bag, then tear open along the perforated line starting from the OPEN tab and enjoy. ※ Designed so you can eat hygienically without touching the bread directly with your hands.

V Aid Bread is made by placing the dough into a specially designed heat-resistant paper cup, where it is then fermented and baked as-is.

V Aid Bread is made by placing the dough into a specially designed heat-resistant paper cup, where it is then fermented and baked as-is. After cooling, it is sealed in a resealable aluminum foil bag that is lightweight, has excellent barrier properties, and is easy to handle. Once you are done eating, both the aluminum packaging and the paper cup can easily be disposed of together as combustible waste — unlike cans, there is no hassle or risk of injury, making it a more environmentally friendly product.
